

Collegiate Charter School  
of Lowell

August 16, 2016

Dear CCSL Parents/Guardians:

It is with extreme delight that I write to inform you that the Lowell City Planning Board approved our K-8 Permit last night with conditions! The conditions involve the regular monitoring of our traffic and safety operations plans with the City.

This is incredibly exciting news for CCSL and provides us with the opportunity to place all students at the Middlesex Street site for the 2016-2017 school year!

We are in the process of finalizing a parent mailing that contains start of the school year information.

A final piece we are working on with the City and Developer is gaining our occupancy permit. Work at the site has been literally as busy as a beehive and we are expecting to have our inspections later this week or next. As soon as there is word to report on, I will send out an update.

Thank you for all of your commitment, perseverance and collaboration. I am so excited about CCSL's progress and future!

Sincerely,

Frederick A. Randall IV
