

# Meet the AQC: Katie Reyes

2021 – 2022  
School Year

## About Me:

My name is Katie Reyes and I am the Academic Quality Controller for Grades 9-11. This will be my 3<sup>rd</sup> year at Collegiate. I attended Boston College where I received my Undergraduate Degree. While at Boston College I was a member of the Women's Basketball Team and competed within the ACC Conference. After college, I taught at an International School in Europe for two years, to teach English. While in Europe I traveled to many different countries, which lead to many amazing experiences. After teaching in Europe, I then attended Merrimack College to receive my Masters Degree. I am looking forward to an exceptional school year! As well as, working together with all Collegiate community members to support our High School students in all academic areas during the 2021/2022 School Year.

## What is an AQC?

The Academic Quality Controller (AQC) responsibilities include, monitoring student performance, overseeing the exam process and scheduling exams, coaching teachers to uphold our rigorous curriculum, and communicating with families with anything pertaining to students academics. Please see my contact information and reach out at any time if there are questions about your students academics.
